STRATEGIC LAND MANAGEMENT LLC

ABSTRACT

When storms hit, restoration depends on one thing: having the right crews ready to move. Strategic Land Management LLC is a veteran-owned, storm-response-ready contractor founded in 2003, providing rapid mobilization support for utilities, municipalities, and restoration partners. We deliver utility line clearance, hazard tree removal, debris haul-off, and site restoration with a safety-first, documentation-ready approach. Our crews are CPR/First Aid and EHAP trained and supported by Certified Arborist oversight, backed by a storm-capable fleet including 24 bucket trucks, grapple trucks, skid steers, and specialty equipment. We are pre-qualified through ISNetworld and Avetta, allowing us to deploy quickly and meet strict compliance requirements. Our mission is simple: restore service faster, reduce risk, and leave every site cleaner, safer, and better than we found it.

Shannon Wise

Manager

Strategic Land Management LLC

Storm Response • Utility Line Clearance • Tree Removal • Debris Haul-Off

Strategic Land Management LLC is a veteran-owned, mission-driven land and vegetation management partner serving utilities, municipalities, and private property owners. Founded in 2003 and led by owner John Culpepper (Disabled Veteran), we mobilize fast—bringing experienced crews, modern equipment, and a safety-first culture to every job.

Our team includes a Certified Arborist and field professionals trained in CPR / First Aid, EHAP, and emergency response protocols to ensure work is completed safely, compliantly, and efficiently. We are pre-qualified through ISNetworld and Avetta, so documentation, insurance, and compliance stay in order.

What makes us different is simple: disciplined leadership, elite safety standards, rapid storm mobilization, and a commitment to leave every site cleaner, safer, and better than we found it.

Why Utilities & Municipalities Choose Us

- Veteran-owned (Disabled Veteran Owner) • In business since 2003
- Certified Arborist on staff • CPR / First Aid trained crews • EHAP trained
- ISNetworld + Avetta vetted • DOT compliant fleet & documentation ready
- Rapid mobilization & 24/7 storm response capability
- Utility line / right-of-way clearance • Hazard tree removal & technical rigging
- Debris haul-off & site restoration • Daily reporting & photo documentation
- Professional, uniformed crews and clean job sites
